Great Things Are Happening In Haysville

Haysville, KS (April 17, 2014) Haysville has recently been recognized as the Gold Star Award winner, a Friend of Education and one of the best places in Kansas to retire. Haysville residents think this is a great place to live and apparently Movoto.com does too. In a recent online article, they compiled a list of the best cities in Kansas to retire to, based on factors such as cost of living, crime and amenities for retirees. Haysville was ranked 4th in the state. For a complete listing, visit <http://www.movoto.com/blog/top-ten/best-places-retire-kansas>.

The Confidence in Kansas Public Education Task Force recently recognized Haysville as being a Friend of Education. The Friends of Education program recognizes volunteer efforts from individuals, schools, businesses, civic organizations and public sector institutions around the state.

The City of Haysville also received the 2013 Gold Star Award from the Haysville Chamber of Commerce during last week's annual Gold Star Banquet. The award "honors the organization that has promoted and improved Haysville, and has been actively involved in community projects and leadership."

We as a city are very pleased to have received these accolades and are excited about the great things happening here in Haysville.
