### **East Grand Avenue Reconstruction Project Begins**

Haysville, KS (March 12, 2014) - Phase one of the East Grand Avenue Reconstruction Project is scheduled to begin on Monday, March 17<sup>th</sup>. The four lanes on East Grand will be reduced to two; one for east bound traffic and one for west bound traffic. The speed limit between Broadway and North Main Street will be reduced from 35 miles per hour to 25 miles per hour. The project could take up to seven months to complete.

The nearly 13,000 commuters who drive Grand every day will be slowed down considerably, extending their travel time. The City of Haysville is asking citizens to slow down, plan for delays, and take alternate routes.

As the weather improves, we also suggest taking alternate modes of transportation. Take the bike out of the shed and give it a tune-up; invest in new walking shoes or roller skates; carpool or tele-commute to work. The ways you can help ease traffic congestion during this exciting stage of growth are endless!

Maintain a patient frame of mind; be kind to other drivers; share the road; look out for motorcycles and remember what we have to look forward to when Phase One is complete:

- Smoother lanes of traffic on Grand from Broadway to N. Main Street
- Improved storm water drainage
- 10 ft multi-use path on the north side of Grand
- Additional antique-style lighting along multi-use path
