Large Scale Brush Burn Beginning In Haysville

Haysville, KS (January 14, 2014) – Haysville will begin burning brush in the field just south of the Public Works Department, located at 401 S. Jane on Tuesday, January 14th. Even though the fires are scheduled to be burning 24 hours a day, the process may still take 90 days to complete. This is due, in part, to the huge quantity of brush collected after the now-infamous straight-line winds blew through town in June of 2013.

Citizens in potentially affected areas of town have received individual notifications. Anyone with questions about the burn can contact Public Works at (316) 529-5940.

We thank our citizens in advance for their continued support of the great things happening here in Haysville!
