**PRIDE Park Fountain Premier**

Haysville, KS (September 3, 2014) - The PRIDE Park Fountain is scheduled to debut at 8:00 p.m. on Monday, September 8<sup>th</sup>, 2014. The fountain holds about 14,000 gallons of water and is located on the northeast corner of Main and Grand. It features two tiers, customizable lighting, and multiple fountains which can be synchronized to music.

The fountain was commissioned by the City Parks and Community Forestry Board and is the result of years of sensible planning by the board. Haysville Councilperson Russ Kessler, current head of the CP&CFB, advised during the April 14, 2014 City Council meeting that the Park Board has been setting aside funds to pay for a water feature in PRIDE Park for about 5 years.

The state-of-the-art software which accompanies the fountain allows light and fountain shows to be customized to fit into any holiday or seasonal celebration. It should remain a dazzling centerpiece in the City of Haysville for many years to come.
